DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 13 February 2023 at 05:29 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are forecast across the United Kingdom during Monday. Isolated Moderate levels might develop near major urban centres, especially across central and southern England and Wales where winds are lighter.

Tomorrow: Air pollution levels are forecast to remain Low during Tuesday. There is a continued chance of localised Moderate levels close to urban centres.

Outlook: Low levels of air pollution are forecast across the UK through the week, with increasingly unsettled weather arriving from the Atlantic.
